Summary:

Currently, I am an Inventory Control Coordinator for ZimmerBiomet, which is the largest orthopedic company in the world. Managing inventory for a multimillion dollar territory has taught me the importance of being detail oriented, prioritizing, and time management. Also working with group projects both in school and in the workplace has taught me how to work as a team with others and the importance of deadlines.

Education:

University of Kansas Coding Bootcamp, Overland Park, KS May 2019-
Full Stack Web Developer Program

Working with the following programs

- HTML
- CSS
- Bootstrap
- JavaScript
- JQuery
- AJAX
- Node
- MySQL
- Mongo
- Java
- React
